Objective

Aspiring Software Engineer with practical experience in Java, Spring Boot, React, and MySQL, and a strong foundation in software development principles. Passionate about building real-world applications, learning modern technologies, and contributing effectively within collaborative development environments. Seeking opportunities to grow as a full-stack developer while delivering impactful solutions.

Education

B.Tech in Computer Science | College of Engineering & Management, Kolaghat | 2022 – 2026

CGPA: **7.56 / 10**

Relevant Coursework: **Data Structures, Algorithms, OOP, DBMS, OS, Computer Networks, Software Engineering (SDLC Model)**

Higher Secondary (Science) | Raghunath Bari R.T. High School | 2020 – 2022

Percentage: **88.2%**

Secondary Education | Raghunath Bari R.T. High School | 2019 – 2020

Percentage: **79.71%**

Technical Skills

- **Backend:** Java, Spring Boot, Hibernate, REST APIs, MySQL, PostgreSQL
- **Frontend:** React.js, JavaScript, HTML, CSS, Tailwind CSS
- **Programming:** C, Python, Java
- **Tools:** Git, GitHub, IntelliJ IDEA, Eclipse, Maven
- **Other:** Spring Security, JDBC, JWT Authentication

Projects

Billify: A Billing Software | **React, Spring Boot, MySQL, Spring Security, JWT**

- Engineered a full-stack billing system to streamline customer, invoice, and transaction management for businesses, designed to reduce manual errors by an estimated 30%.
- Constructed responsive frontend with **React (CRUD workflows)** and secured backend using **JWT + Spring Security**. And designed REST APIs and connected to MySQL for persistent data management.
- Aimed at improving business efficiency by reducing manual errors and providing secure, and efficient workflows for managing invoices and customer data.

HireSphere: Job Application Platform | **Java, Spring Boot, REST API, MySQL, React**

- Built a full-stack job portal allowing users to browse and search available job listings with filters.
- Developed RESTful backend APIs using Spring Boot to handle job creation, retrieval, and management.
- Designed and implemented MySQL database schema for storing job listings.

Certifications

- Java Spring Framework, Spring Boot from udemy
- Web Development Fundamentals from IBM SkillsBuild
